Sorry for the delay...in case you can still use a testimonial - how about this?

I am a new resident to NYC and travel quite a bit for personal and business. Like any responsible pet and home owner, I was hyper-sensitive to who would be in my home and caring for my aged kitties, Simon & Garfunkle while I was away.

I researched and interviewed several pet sitters in the city to find the right fit. Petaholics was my top choice, not only because of Jordan's (the owner) professionalism and organization but for Dave, the actual pet sitter that would come into my home and care for my animals. I had and continue to have wonderful experiences with Petaholics. thanks! Jacq (a girl) Nichols

which leads me to.....

is Dave available to check on the kitties, poop scoop and give fresh food/water this coming weekend?

dates I'd need him to come by are:

Saturday the 29th & Monday the 1st?

thanks

jacq
